Graphing a Package of Fun Size M&M's

For this activity, you will need a fun size package of M&M's. Open the package and separate your candies by color. After you have separated them, color in one box above the color name for each color of M&M's you have in your package. When you're done, you'll have your graph showing how many of each color you had in your package. Be sure to compare your results to somebody else's results. Do your graphs look similar or different? Why do you think this is the case?

Blue	Green	Brown	Red	Orange	Yellow

Which color did you have the most?

Which color did you have the least?

Graphing a Package of Fun Size Skittles

For this activity, you will need a fun size package of Skittles. Open the package and separate your candies by color. After you have separated them, color in one box above the color name for each color of Skittles you have in your package. When you're done, you'll have your graph showing how many of each color you had in your package. Be sure to compare your results to somebody else's results. Do your graphs look similar or different? Which color did you have the least?

Halloween Candy Predictions:

Weights and Comparisons

For these questions, you will NOT need a scale. This is your page to make your predictions (a best guess) before you actually test to find answers.

Make your prediction about the weights and circle or color the box in each match up that you think will be heavier:

2 Pieces of Bubble Gum

vs.

1 Small Box of Nerds

1 Fun Size Snickers

vs.

1 Fun Size Butterfinger

3 Rolls of Smarties

vs.

1 Fun Size Candy Bar (Your Choice)

1 long Tootsie Roll

vs.

1 Roll of Smarties

1 Mounds Bar

vs.

1 Almond Joy Bar

1 Snickers Bar

vs

1 Fun Size Bag of Skittles

Which item in your bag is the lightest?

Halloween Candy Predictions:

Lengths and Comparisons

For these questions, you will **NOT** be comparing the lengths of the candies. You will just be making a prediction about which you think might be longest.

Make a prediction about the lengths and circle or color the box of which you think will be longer:

2 Pieces of Bubble Gum

vs.

1 Small Box of Nerds

1 Fun Size Snickers

vs.

1 Fun Size Butterfinger

1 Fun Size Bag of M&M's

vs.

1 Fun Size Bag of Skittles
